developing and maintaining a secure framework for professional practice is a core part of any counselling and psychotherapy training as all therapists need to understand the key values ethics and laws that underpin the profession today but what does being a member

of a profession actually mean and what does being a professional actually involve structured around the bacp core curriculum and with the help of exercises case studies and tips for further reading this book covers everything from the requirements of the bacp ethical framework to broader perspectives on good professional practice it includes practising as a therapist in different roles and organizational contexts working with key issues including difference vulnerable clients and risk understanding the law and relevant legal frameworks for practice working ethically including contrasting models and approaches to ethics

this book addresses the needs of trainees and practitioners in psychotherapy and counselling and provides an understanding of the framework of the therapeutic relationship the approach is a practical one covering subjects including managing appointments the right setting for consultations referrals money and the importance of confidentiality and clear communication with clients case studies are used in the form of vignettes to illustrate and clarify situations faced by those involved in the growing practice of psychotherapy and counselling

written specifically for students on counselling and psychotherapy courses this book gives an overview of the profession from its early beginnings in psychotherapy and psychoanalysis through the development of the different schools and approaches of talking therapies including psychodynamic cognitive behavioural and person centred approaches working within various sectors such as the commercial educational and public is also considered and discussed the author concludes the book by looking at where counselling and psychotherapy is heading in the future

this textbook provides a guide to the development of a rigorous and creative research supported practice for students practitioners and researchers in counselling and psychotherapy with an emphasis on critical thinking and research mindedness it introduces practical research skills and links them to self awareness and critical reflection learning how to creatively and effectively use oneself in the treatment process is an essential component in therapy training and this level of self awareness has long been a neglected area in research until now with examples ranging from private therapeutic practice to psychiatric related research each chapter combines how to do it advice with illustrative real life examples the authors outline the use of a broad range of research methods embracing arts as well as rct based research and covering qualitative quantitative pluralistic and mixed methods approaches whether you are engaging with research for the first time or already developing your own research projects if you are a student at diploma level or taking a postgraduate research course for counsellors psychotherapists and counselling psychotherapists this is essential reading for anyone looking for a book that combines self awareness with analytical and practical skills

this book provides a very good introduction to the key concepts and theories that inform and frame the current psychotherapeutic and counselling landscape each author has

written on a selection of basic concepts as they are approached in their preferred therapeutic modality resulting in an exciting and inclusive overview of both old and contemporary psychotherapeutic thought in addition each author is mindful of the importance of a critical appraisal of the various concepts and theories thus this book will be extremely useful both for trainees and practitioners dr anastasios gaitanidis senior lecturer university of roehampton london uk as well as being an invaluable source of knowledge about all aspects of counselling and psychotherapy this book is a real pleasure to read the authors have been able to capture the essence of ideas traditions and key figures in a way that is accessible and a consistent source of delight and illumination highly recommended for anyone wishing to expand their psychotherapeutic horizons john mcleod emeritus professor of counselling university of abertay dundee uk this book does what it says on the tin it highlights the key concepts and theories in the field of counselling and psychotherapy it is a systematic and encyclopaedic voyage of all the central constructs in the field it is very well written snappy and thorough but more important it serves a vital need of putting in one place all the theories and concepts needed by anyone interested in counselling and psychotherapy cary l cooper cbe professor of organizational psychology and health lancaster university uk and president of bacp this is an invaluable guide for anyone wanting easily accessible information about counselling theory and practice it will be as useful to trainees sitting as counsellors as to experienced practitioners wanting to update their knowledge on the latest thinking tim bond university of bristol uk this helpful book offers a concise overview of core concepts within the four dominant approaches to counselling and psychotherapy psychodynamic humanistic existential cognitive behavioural and integrative the book aims to assist you in developing your critical thinking and essay writing skills and includes over 140 entries each between 500 and 1200 words critical and engaging discussions of core concepts biographical sketches of leading theorists including freud jung and rogers using the popular alphabetical format key concepts in counselling and psychotherapy is an ideal first source for students with an essay on counselling theory to write a case study to analyse a belief or assumption to challenge or a question to explore it will also appeal to practitioners or academics wanting to refresh their knowledge of theory and research

showing practical competence through the production of client reports and case studies is a key aspect of training therapists and other mental health professionals this classic edition of reporting in counselling and psychotherapy offers a unique hands on guide to this element of practical work using clinical examples to guide the reader and a detailed analysis of case study and process report writing it shows readers how to present clear concise and properly presented reports this book remains an invaluable tool not only for those embarking on practical training in psychotherapy counselling and psychology but also for trainers in these areas and for clinicians writing clinical reports or case presentations

now in its second edition this book is established reading for any practitioner or trainee wishing to develop their own personal style of working as well as examining contemporary

integrative approaches the authors show how to develop an individual approach to integrating theories and methods from a range of psychotherapies offering clear strategies for integration rather than a new therapeutic model this practical new edition puts added emphasis on the integrative framework and procedural strategies extending discussion of the individual practitioner as integrator

this book examines the therapeutic use of self in counselling and psychotherapy practice it considers the intertwining of the therapist's professional and personal self their ways of doing and being with their clients

in this highly original and thought provoking work the late miller mair puts forward his ideas for a new psychology first published in 1989 he deals with issues of fundamental importance to the future of a psychology guided by genuine enquiry and concern rather than mere professional self interest crossing and re crossing boundaries between psychology psychotherapy and philosophy and between science and art he demonstrates the linkages between the personal and the impersonal subject and object inside and outside with a daring not previously risked by anyone working in the area dr mair stresses the importance of a poetic approach in psychology and psychotherapy and the need to explore and understand the nature of psychology through an imaginative freedom of language he emphasizes that a poetic awareness and attentiveness is fundamental to any pursuit of understanding of ourselves or others this is a very personal book concerned with personal knowledge but it is meant for anyone who seeks to understand themselves and others and what is involved in coming to such understanding focusing on ordinary human experience and moving towards literary and artistic modes of expression the author invites you to enter in follow what you think and feel as he proposes a radical revision of much that is accepted in psychology and in psychotherapy

this textbook aims to support counsellors psychotherapists and counselling psychologists to develop a creative research informed practice following from the authors earlier title enjoying research the book covers qualitative quantitative pluralistic and mixed methods approaches with a special focus on diversity researcher support and innovative methods the book explores research during critical stages like question formulation data gathering ethics analysis and presentation of the findings it mixes theory with illustrative real life how to do it examples and reader activities international experts contribute with examples ranging from arts based decolonising research to creative use of outcome and survey based approaches with a shared interest in dialogues between scientific and aesthetic or intuitive embodied means of knowing this is essential reading for anyone looking for a book that combines self awareness with analytical and practical skills in counselling and psychotherapy related research sofie bager charleson is director of studies on the mphil phd in psychotherapy at the metanoia institute and a bacp and ukcp registered psychotherapist and supervisor she chairs the research group therapists as research informed practitioners trp and is the co founder of the annual metanoia research academy for practitioners sofie specialises in areas relating to professional development and

research training alistair mcbeath is a chartered psychologist and ukcp registered psychotherapist trained at regents college and guys hospital he is director of studies for the doctorate by public works at the metanoia institute alistair considers himself to be a researcher practitioner and is keen to promote this identity within the psychotherapy profession he also works for an edinburgh based therapeutic consultancy and is a member of the editorial board of the european journal for qualitative research in psychotherapy

what is a therapeutic alliance how do i create a bond what might lead to the alliance breaking down what do i do when the relationship feels stuck these are just some of the questions addressed in this important new book for trainee and qualified therapists wanting to understand engage in and make the most of the therapeutic relationship taking you through each stage of the therapeutic process from initial boundary setting to effective endings the book considers a number of different settings and client groups such as working in an online environment and with children and young people structured around frequently asked questions an accessible and engaging narrative guides you through the skills and considerations for an effective therapeutic relationship as well as the potential challenges it might face bringing to the forefront the mutuality of the relationship and the client as a proactive agent this book will equip you with the knowledge and skills needed to develop trusting and productive relationships with your clients

this collection of essays has been compiled as a tribute to the work of psychologist peter lomas peter lomas trained as a freudian psychoanalyst at the institute of psychoanalysis in london

how much is enough addresses this important question looking at the reasons why therapy can go on for too long or can come to a destructively premature ending and offering advice on how to avoid either with a timely conclusion using vivid examples and practical guidelines lesley murdin examines the theoretical technical and ethical aspects of endings she emphasises that it is not only the patient who needs to change if one is to achieve a satisfactory outcome the therapist must discover the changes in him herself which are needed to enable an ending in psychotherapy how much is enough is a unique contribution to therapeutic literature and will prove invaluable to students and professionals alike

a valuable handbook for psychotherapists and counsellors distinguished practitioners representing a wide range of approaches describe their methods of appraisal and how these have developed

jenkins book makes the law relevant understandable and manageable to counsellors and psychotherapists it makes clear reassuring and essential reading for therapists in training as well as those in practice all counsellors and psychotherapists need to be up to speed with the law and with how it relates to their work this book is more than timely with the impending introduction of regulation and the fact that increasingly the work of counsellors and psychotherapists is being subjected to legal scrutiny healthcare counselling and

psychotherapy journal counselling psychotherapy and the law is the long awaited second edition of peter jenkins comprehensive introduction to legal issues in relation to counselling and psychotherapy in the uk this text has been fully updated to include coverage of the key developments in the law that have had major impact on therapists practice with regard to data protection and the management of confidentiality the book breaks new ground by exploring in detail the relationship of ethics to the law and providing a framework for relating the bacp ethical framework to legal decision making key features of this new edition include extensive use of case studies these bring legal examples to life and give a human dimension to powerful ethical dilemmas such as seeking agreement to end medical treatment or client s gaining access to their own confidential records key points which provide quick summaries of complex material and reference guides for professional practice the multiple points of crossover and intersection of law and therapy these are identified and explored ranging from the use of narrative theory to the provision of pre trial therapy for abused children to the role of the therapist as expert witness this new edition provides clarity and reassurance for practitioners at all levels about the exact nature of their responsibilities and how these can best be managed in order to enable them to comply with the law and focus on their therapeutic work with clients counselling psychotherapy and the law second edition provides an essential source of reference in a single volume making a fascinating and complex topic understandable and bringing it to life peter jenkins formerly a member of the bacp professional conduct committee and currently a member of the ethics committee of the ukcp has been described by counselling at work as probably the foremost authority on legal issues in counselling he is co director of the counselling and psychotherapy directorate at the university of salford more reviews despite requiring real concentration this is an essential read for counsellors and psychotherapists irrespective of background and theoretical orientation trainers supervisors and agency coordinators especially would benefit from the up to date material contained here therapy today peter jenkins has consulted widely over the content of this book both within the psychological therapies field and with legal eagles his use of clear flow diagrams and comparison boxes enable the reader to identify the similarities and differences between professional and moral ethical debates it is a thoroughly researched and accessible text association for university and college counselling journal a comprehensive overview of a rapidly evolving field this book represents a helpful addition to practitioners bookshelves as a reference work but also a beneficial read to stimulate thoughtful responses to practical dilemmas it provides a good support to both therapeutic and supervision practices across the spectrum of experience and theoretical models the psychotherapist

this is the first book to focus on commonly occurring client issues and explore how to work with them from a person centred perspective extensive case studies translate person centred theory into effective practice enabling therapists to work successfully with clients presenting a variety of different problems including post traumatic stress depression panic and anxiety drug and alcohol issues eating difficulties self harm childhood sexual abuse each chapter covers the origin and meaning of the difficulty the person centred therapeutic

approach and process and the outcomes drawing from a combined 50 years of experience in the field paul wilkins and janet tolan bring together leading person centred therapists to address how and why each problem can be eased by means of working with the person this book should be on the desk of every counselling and psychotherapy trainee and is recommended reading for other practitioners of health and social care working with these client groups

are some therapies more effective than others how important is the relationship which clients do best in therapy essential research findings in counselling and psychotherapy answers these questions and many more providing trainees practitioners and researchers with a comprehensive introduction to the latest findings in the field the book sets out in a jargon free way the evidence for the effectiveness of therapy and the factors associated with positive therapeutic outcomes it gives suggestions for further reading definitions of key terms and questions for discussion making this an ideal text for use in training the book is also designed for practitioners who increasingly need to justify their therapeutic work on empirical grounds essential research findings in counselling and psychotherapy gives them the knowledge and confidence to do just that more than that it makes research findings accessible and provides information on how to practice counselling and psychotherapy in an effective way

clients who seek therapy often feel they are struggling with their whole being their emotional physical relational and social selves understanding this is crucial to developing a successful therapeutic relationship using psychodynamic psychoanalytic and existential ideas this book explores topics fundamental to human living such as love generosity shame mortality and spirituality it considers how these states of being can affect clients lives and the important role they play in the relationship between the therapist and the client combining theory with clinical experience and practice it provides trainee and practising therapists with a thought provoking perspective that broadens and enriches thinking reflection and understanding of their work drawing on original thought from a range of theorists including bion buber freud heidegger irigaray jung klein and winnicott this book is an important contribution for students and practitioners in the fields of counselling and psychotherapy

reflective practice has become established as an essential feature of practice in psychotherapy and counselling in the uk europe usa and some other parts of the world however the writing on reflective practice is arguably fragmented and scattered and much of it is highly theoretical and abstract this book draws together conceptual and ethical issues regarding reflective practice including the meaning and development of the orientation more importantly it connects theory to day to day practice in psychotherapy and counselling addressing issues such as what does reflective practice look like in practice how do we develop the skills in carrying it out what ways does it assist practice the book offers an exploration of reflective practice within different models of psychotherapy and counselling cbt psycho dynamic and narrative systemic family therapy narrative and

community approaches throughout it employs a range of illustrations from a variety of clinical contexts to illustrate reflective practice in action these include work with children and families adult mental health trauma and abuse learning disability youth offending and bereavement and loss the mix of theoretical background along with practical examples and exercises will be key for students and practitioners in the fields of psychotherapy and counselling the book will be a spur to readers to challenge dominant assumptions and modes of clinical practice and help them fulfil the compulsory requirement for a reflective practice element in their training

people are constituted by their relationships past and present inner and outer conscious and unconscious people are agents who experience know and act on the world at the heart of your agency is your self positive puzzling and problematic colin kirkwood explores these and other ideas of john macmurray ian suttie ronald fairbairn john d sutherland and paulo freire and shows how they apply in counselling and psychotherapy adult education community and society in today s world a set of ideas attitudes and practices has taken hold which emphasise the individual self centredness pleasure seeking consumption success and the accumulation of wealth and power they are deeply harmful and need to be tackled colin demonstrates how these ideas affect us and how they can be taken on and defeated in a dialogical narrative of psychotherapy with a girl suffering from severe anorexia written by the girl herself her psychotherapist and one of her doctors john shemilt psychoanalyst and consultant psychiatrist writes through his lucid personalist account of the development of the scottish tradition in psychoanalytic thinking colin kirkwood provides an important 21st century commentary on the meaning of social context the personal relationship and the experience of self in the process of counselling and psychotherapy john mcleod emeritus professor of counselling university of abertay dundee writes i highly recommend this book to all counsellors and psychotherapists who are interested in deepening their understanding of their work colin kirkwood writes accessibly with humour and grace and draws on philosophical and cultural perspectives to offer a fresh appreciation of the meaning of adopting a relational approach to therapy his work is grounded in everyday life experience but at the same time views that experience as a microcosm of wider social and political currents this book will be of interest to those involved in counselling psychotherapy and psychoanalysis psychiatry psychology nursing and general medical practice social work and pastoral care schooling adult community and higher education ecology theology and social geography literature and philosophy and politics international and intercultural relations
